ng Mayor Mirk Rospe the Non-Residen Wood Chappers Out of Their Mire. One hundred men wandered around the Oity Hall vesterday morning in different stages of discontent, varying from simple rage to boilstruction of the new aqueduct, and their names are all down on Pay Roll 8. But Pay Roll 8 has not been signed, and through a thick black cloud of language shone out the name of Acting Mayor Kirk, coupled with a desire that he might be blighted in the flower of his manho and in various ways be incapacitated from fig-uring as the head of the City Fathers.

The men said they had been told by City Au-ditor Austin that they would be paid off yesterday. They had been telegraphed for, and had all come down in a body. But Alderman Kirk,

ditor Austin that they would be paid off yesterday. They had been telegraphed for, and had all come down in a body. But Alderman Kirk, acting in the place of the absent Mayor, had pointed out to them that among the civil engineers and others whose names were on the pay roll were several wood choppers, non-residents of the county, and for that reason had refused to sign the pay roll, thus preventing all of them from getting their money.

While hot discontent was boiling on the asphale payement below, Mr. Kirk sat ensconced in the Mayor's office, placidly enjoying the breeze which blew across from Broadway, over the backs of the sparrows, and into the Aldermanic lungs, after being first purified by passing through the branches of a large tree.

Alderman, said the reporter, these men are vory much excited and they say that you refused to sign their pay roll on personal grounds, because you objected to non-residents working for the city Government.

Well, and the Alderman, rejuetantly withdrawing his gaze from a little bird singing in the tree above him, these men are wrong and I am right. They are wrong because it is too hot a day to be excited, and I am right because I have acted according to my conscience. It is not right for men who do not live in the city to take the city's money; and I presented a resolution to the Board of Aldermen yesterday to appropriate \$750 to test this very question in the courts. Now, having done this, it would be very inconsistent in me to go right against the principle which I thus expressed by signing the pay roll of these men, some of whom live out of the city. I might, perhaps, sign it, designating those whom I wished to have paid, but there is no use in taking so much trouble. These men won't starvo, if they do wait two or three days until the Mayor gets back from Rochester.

You see, the size of the whole business is this. I can live in the city, and the Mayor ives here, too. Why can't these people live here, too? If they must have a fine country seat, they must have a fine coun

A black-eyed young woman, wearing a strawberry-colored hat and carrying a dainty hand bag, was in Yorkville Court yesterday afternoon. Kyrian Moore, a young man of 344 Third avenue, charged her with trying to shoot tim. He said her name was Margaret Welch. "I was in my room at 312 East Thirty-fifth street four weeks ago," Moore said, "when she came in unannounced, and, pulling a pistol from her besom, pointed it at me, saying: 'Now I've got you. I'm going to kill you.' I wrenched the pistol from her hand, removed the cham-

the pistol from her hand, removed the chamber, and took out the loads. She promised she would not molest me again if I did not have her arrested. Last Saturday evening, as I was passing Thirty-fifth street in Third avenue, she flew at me again, holding a pistol to my head. I struck it away and had her arrested. On cross-examination bloore said that he first met Miss Welch five years ago in Pitts-burgh, where she was the forewoman in a dry goods atore. He took her with him to the White Mountains. Next they came to New York and lived together. Afterward he found out she kept other company, and he left her. Since then she had followed him to five cities, and was constantly disgracing him. Since then she had followed him to five cities, and was constantly disgracing him.

"Judge," said the woman, "I am his wife, and he doesn't support me or my three children. He spends all his money at horse races. One night four years ago in Hollidaysburgh, Fa., he took me to a ball. At support he wine be gave me to drink made me drowsy. When I woke up he introduced me to a priest who, he said, had just married us. I lived with him as his wife in the White Mountains and in this city until he abandoned me."

Justice Murray discharged the prisoner, and held Moore for her support.

Facts and Reasons.

Effects Produced by AYER'S SARSAPARILLA and by Nothing Else so Perfectly.

It strengthens and invigorates sufferers from enervation, languor, weakness, and mental depression.

It has an almost magical effect in curring eruptive and cutaneous disorders.

It eradicates from the blood the taint of that terribly destructive disease, Hereditary Scrofula.

It expels from the system the baneful poison of Mercury, which is as serious as that of Scrofuls.

It purifies and regenerates the life current politited by the corruption of contagious disease.

It stimulates the secretory organs, effects the removal of all impurities from the blood and makes it new, rich, and pure.

It restores health to sufferers from thin blood and impaired vitality.

Advantages that AYER'S SARSAPARILLA

Possesses over all Others.

It is composed of the most efficacious alterative, diuretic, and tonic drugs known in pharmacy, among which are the genuine Honduras Barsaparilia, Yellow Dock, Stillingia, and the Iodides of Potasium and Iron.

It is a highry concentrated medicine, scientifically and honestly compounded so as to secure to it the highest degree of activity and perfect uniformity.

It has received the hearty endorsement of the leading men in the medical profession, who recognize it as a standard pharmaceutical preparation, and prescribe it in their practice.

It contains no poisonous minerals or other dangerous drugs, the use of which for temporary effect in the many crude and cheap mixtures sold as alteratives, produces effects on the system often worse than the diseases they are offered to cure.

It costs no more than any other, but would still be the cheapest blood-purifying medicine in the world, even were its price three times greater, since it is the only one that does "real, lasting good."

It has been before the public for nearly forty years, and has constantly grown in popular favor, both at home and approved by, at least 4,000,000 families in the United States, and 7,000,000 throughout the world. Women have especial reasons for commending it.

It has proven its potency in curing diseases caused by vitiation of the biolod. It must not, however, be expected and is not claimed that a single dottle will cure such cases; but patients should persevere in the use of this remedy until a radical cure is effected.

It is the only blood-purifier that has won and retained the confidence of the people of all tropical countries, where such medicines are much required.

It is the only medicine of its class that sailors, as a rule, have any faith in — and they are right.

On the Jury.

TO PERFORM HIS SHARE OF THE DUTIES HE OWES TO GOOD GOVERNMENT. BUT IN BUYING CLOTHING ALL MAY BE CONSIDERED ON THE JURY, THE POPULAR VERDICT OF WHICH IS THAT HIRSHKIND & CO. SELL BETTER CLOTHING AND AT HIRSHKIND & CO. SELL BETTER CLOTHING AND AT LOWER PRIORS THAN ANY OTHER HOUSE IN THE CITY. AND THIS PERPECTLY IMPARTIAL CONCLUSION IS FOUNDED ON THE FACT THAT THEY ARE THEIR OWN MANUFACTURERS, BUY ONLY THE FINEST CLOTHS, AND ALWAYS TAKE ADVANTAGE OF THE MARKET IN THE INTEREST OF THEIR CUSTOMERS. FOR THIS REASON THEY IMMEDIATELY REPUND THE MONEY IN CASE ANY GARMENT SOLD SHALL PROVE TO BE OTHER-WISE THAN EXACTLY AS REPRESENTED.
